Arun Nair

CNC Operator

Sharjah, United Arab Emirates • arun.nair@example.com

Summary

CNC operator with five years of experience producing turned metal components in a supervised machine-shop environment. Reads engineering drawings, checks dimensions and records tool wear and production issues. Works carefully within approved setup and inspection procedures.

Experience

CNC Operator, Example Sandmere Precision Components — Jan 2023 - Present

Sharjah

- Operate two CNC turning machines producing small-batch aluminium and steel components from approved setup sheets.
- Check first-off and in-process dimensions with vernier callipers and micrometers, recording results for quality review.
- Recorded tool-condition observations for weekly reviews of 100 sampled parts; burr-related rework fell from 18 to 9 parts across two review cycles.
- Complete shift handovers covering job status, tool changes, inspection holds and material availability.

Machine Shop Trainee, Example Dunewick Machine Works — Jun 2021 - Dec 2022

Sharjah

- Supported material preparation and part identification for turning and milling jobs under operator supervision.
- Checked basic dimensions against drawing requirements and referred unclear tolerances to the supervisor.
- Maintained job cards and separated parts awaiting inspection from approved finished components.

Education

Diploma in Mechanical Engineering — 2018 - 2021

Example Riverfen Technical College

Skills

Machining: CNC turning, Setup sheet reading, Tool wear observation, Engineering drawings

Inspection: Vernier callipers, Micrometers, In-process checks, Inspection records

Shop practices: Job cards, Part traceability, Shift handovers
