Maya Bennett

Database Analyst

Leeds, United Kingdom • maya.bennett@example.com

Summary

Database analyst with four years of experience maintaining reporting datasets for wholesale operations. Uses SQL, PostgreSQL and documented validation checks to resolve data discrepancies, improve query performance and keep analysts working from consistent definitions.

Experience

Database Analyst, Example Northmere Trade Systems — Mar 2023 - Present

Leeds

- Maintain 34 reporting tables supporting purchasing, stock and finance reports for a regional wholesaler.
- Reduced a daily stock reconciliation query from 11 minutes to 3 minutes by reviewing its execution plan and revising joins with the database administrator.
- Added duplicate-key and missing-reference checks to nightly imports, flagging exceptions before the morning reporting refresh.
- Documented ownership, refresh timing and definitions for 26 commonly used fields in a shared data dictionary.

Junior Data Analyst, Example Westfen Distribution Services — Jul 2022 - Feb 2023

Leeds

- Reconciled weekly sales extracts against source totals and investigated differences with finance colleagues.
- Built reusable SQL queries for six recurring supplier reports, replacing repeated spreadsheet lookups.
- Recorded import failures and recovery steps so the support team could distinguish source-file problems from transformation errors.

Education

BSc Computing, Database systems — 2018 - 2021

Example Northmere College of Technology

Skills

Databases: PostgreSQL, SQL Server, SQL joins, Relational modelling

Data quality: Reconciliation, Duplicate detection, Source-to-target mapping, Data dictionaries

Working tools: Excel, Git, Power BI
