Farah Khan

Quality Control Microbiologist

Pune, India • farah.khan@example.com

Summary

Microbiologist with four years of experience supporting environmental and product testing in a food laboratory. Maintains traceable sample records, documents control observations and escalates exceptions to the laboratory supervisor. Comfortable coordinating routine workloads and writing concise technical handovers.

Experience

Quality Control Microbiologist, Example Cedar Food Laboratory — Jan 2024 - Present

Pune, India

- Processed approximately 90 routine food and environmental samples per week under approved laboratory methods and supervisor review.
- Reconciled sample identifiers against receipt logs before analysis, resolving 23 labelling queries with the sampling team during a six-month review.
- Maintained media preparation and equipment-use records and escalated failed control observations before reporting affected work.
- Reorganised the results handover by test stage, reducing missing-status queries from the quality team from 11 to 4 per week over two months.

Junior Laboratory Analyst, Example Cedar Food Laboratory — Aug 2022 - Dec 2023

Pune, India

- Logged received samples and prepared assigned materials under laboratory procedures.
- Recorded control observations and referred unexpected results to the supervising microbiologist.

Education

M.Sc in Microbiology — 2020 - 2022

Example Lakeside Institute

Skills

Microbiology: Aseptic technique, Culture-based testing under SOPs, Environmental sampling records, Media preparation records
